ALBERTO LA TASSA

Alberto La Tassa (Padova, 1986) si forma all'Accademia di Belle Arti di Venezia e oggi vive e lavora tra Venezia e Miami. Cresciuto in una famiglia con una radicata tradizione artistica, sviluppa sin da giovanissimo un rapporto naturale con l'espressione visiva, **esplorando tecniche e linguaggi diversi**.

Dal 2010 espone in Italia e all'estero, partecipando a mostre personali e collettive in Europa, Stati Uniti e Asia.

Questo continuo attraversamento di luoghi e culture diverse alimenta una sensibilità cosmopolita, che orienta il suo lavoro oltre ogni confine stilistico o geografico.

Alberto La Tassa (Padua, 1986), trained at the Academy of Fine Arts in Venice, now lives and works between Venice and Miami. Raised in a family with a strong artistic tradition, he developed an early and natural connection to visual expression, **exploring a wide range of techniques and languages**. Since 2010, he has exhibited in Italy and abroad, taking part in solo and group shows across Europe, the United States, and Asia.

This constant movement between places and cultures has shaped a cosmopolitan sensibility that guides his work beyond stylistic or geographic boundaries.

La forma che cambia

La pratica di Alberto La Tassa nasce da una costruzione rigorosa dell'immagine dove **disegno, velature e stratificazioni materiche modellano la figura**. La precisione anatomica si intreccia a interventi che ne alterano i contorni, generando **superfici in continua trasformazione**.

Accanto alla pittura, l'artista utilizza disegno e tecniche miste per modulare densità e ritmo, ampliando le possibilità evocative. Corpi e simboli attraversano una metamorfosi continua, invitando lo spettatore a uno sguardo che oscilla tra riconoscimento e immaginazione.

Alberto La Tassa's practice is rooted in a rigorous construction of the image, where **drawing, glazes, and layered materials shape the figure**. Anatomical precision intersects with interventions that alter its boundaries, generating **surfaces in constant transformation**.

Alongside painting, the artist employs drawing and mixed media to modulate density and rhythm, expanding the work's evocative potential. Bodies and symbols undergo continuous metamorphosis, inviting the viewer into a gaze that moves between recognition and imagination.
